Leading the Change Towards A More Sustainable Future

At NTPM, we are committed towards an environmentally responsible way of life; that is why we are taking the lead in creating a range of 100% recycled and recyclable products that will pave the way for a change in the future.

At the heart of our environmental commitments are our ZERO Waste (ZEROW) management programs; as such NTPM is taking proactive initiatives in reducing our environmental footprints.

About eco world™ Products

eco world™ consist of a range of quality, environmentally friendly stationary products comprising envelopes, papers, and files; with future additions as we continue our in-depth research into more efficient ZEROW production processes.

An Eco-Friendly Manufacturer

NTPM is an environmentally conscious paper manufacturer and we are proud to receive:

• ISO 9001:2000 certification in 2002 years

A recognition of our corporate commitment to excellence.

• ISO 14001:2004 certification in 2008 years

A recognition of our consistent adherence of good manufacturing practices that demonstrate respect for the environment in the choice of raw materials, energy sources and production process.

• Environmental Choice New Zealand (ECNZ) accreditation in 2009

A range of products from NTPM has been approved by Environmental Choice New Zealand (ECNZ); an eco-labelling program which is initiated and endorsed by the New Zealand Government and adheres to operated on international environmental standards and principles.

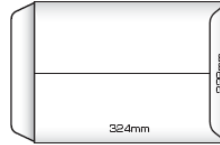

Environmental Choice recognizes the genuine moves made by manufacturers to reduce the environmental impacts of their products and provides a credible and independent guide for consumers who want to purchase products that are better for the environment.
